

Power Cable

LinkIT Power C15/C14 0.7 m

C15/C14 | 3 x 1,00mm² | PVC | Green

Product number: NYEC15C14-07M-GRE

Product Description

A C15/C14 power cable is typically used to connect IT equipment, such as servers and network switches, to the power supply. The cable features straight connectors on both ends, with the C15 plug fitting the standard C14 socket. It is CE marked, ensuring compliance with European safety standards, and is certified under REACH (chemical usage) and RoHS (restriction of hazardous substances), ensuring environmentally friendly manufacturing and material use.
