Product Datasheet

STOLTZEN®

Controlsystem

Stoltzen PoseidonLite TP1 Touch Processor
LAN, IR, RS232, Touch GUI

Product number: POS-TP1

Product Description

The TP1 Control Processor is a versatile device designed for device management. It offers support for Relay, IR, RS232, and TCP/IP control, and can be easily controlled and configured via a GUI interface. With the ability to be powered by PoE, and a built-in web server for programming, TP1 provides an efficient and adaptable solution for device control in a wide range of environments. With two built-in relay units and support for high-speed communication, TP1 offers reliable device control and flexibility to meet various needs.

Main Specifications

Brand	Stoltzen
Color	Black
Measurements (WxHxD)	49mm x 65mm x 43.5mm
Power Supply	12V DC, PoE
Baudrate	9600, 19200, 38400, 57600, 115200
Ports	2x RS232, 2x IR, 2x Relay
Program Port	TCP/IP
Output Connector	2 x 3-Pin Pluggable terminal blocks
	2 x 2-Pin Pluggable terminal blocks

Operating Humidity	10% ~ 90%
Operating Temperature	0 ~ +40°C
Storage Temperature	-10 ~ +55°C
Net Weight	150g
