

Control Panel

Stoltzen PoseidonLite SWC-1 Control Panel

6 buttons + Volume | LAN, IR, RS232

Product number: SWC-1

Product Description

The SWC-1 is a programmable control panel that can be used to fully control compatible switches and other third-party devices such as projectors, screens, and matrix switchers. It comes with six customizable control buttons, one volume control knob, and support for IR, RS232, and TCP/IP control. This control panel is powered by PoE, making it easy to install and set up without the need for additional power cables.

The SWC-1 also features a TCP/IP port that can be connected to a PC to customize the button control using the included GUI software. The RS232 ports allow the control panel to send RS232 commands to third-party devices, while the IR ports can be used to receive and learn IR codes to build the IR database.

In addition to its versatile control capabilities, the SWC-1 is also compact and easy to install. It comes with a variety of pluggable terminal blocks and button caps, as well as a user manual to help you get started. The control panel's case measures 86mm x 86mm x 50.5mm

Main Specifications

Brand	Stoltzen
Color	Silver
Measurements (WxHxD)	86mm x 86mm x 50.5mm
Power Supply	12VDC, PoE

Baudrate	Product 9600 Support controll on 9600, 19200, 38400, 57600, 115200
Program Port	TCP/IP
Output Port	2 x RS232 2 x IR 2 x Relay
Output Connector	2 x 3-Pin Pluggable terminal blocks 2 x 2-Pin Pluggable terminal blocks

Extended Specifications

Operating Humidity	10% ~ 90%
Operating Temperature	0 ~ +40°C
Storage Temperature	-10 ~ +55°C
EAN	7072262009698
Net Weight	195g
