

USB Extender kit

Stoltzen HERA U2x4 USB2.0 Extender Kit

Product number: U2X4

Product Description

The Stoltzen U2X4 USB 2.0 extender kit allows you to easily connect and control peripherals up to 50m away. The kit is USB 2.0 compliant and supports a transmission distance of up to 50m over a CAT5e/6/7 cable. It is equipped with 4 USB ports that can be used to connect with peripherals such as keyboards, mouse, cameras, microphone, and more. The first two USB-A ports provide 5V1A each, and the other two output 5V500mA each. The extender kit is plug and play, and is compatible with Windows, MacOS, and Linux.
