

Fight against coronavirus

We know how important it is to maintain health and safety at work during this difficult time. That is why, to meet the needs of our clients, we have decided to create new products: EDBAK Proscreen.

EDBAK Proscreen plexi

Plexi size HxWxD
100 cm x 75 cm x 4 mm Plexi size HxWxD
50 cm x 75 cm x 4 mm

For large orders, plexi size and thickness can be customized

EDBAK Proscreen

-  Increases workplace safety and hygiene
-  Protects against direct contact
-  Safe, transparent plexi
-  Easy cleaning

Two desk mounting options

desk mount

freestanding mount

The plexi can be mounted vertically or horizontally. Handles can be ordered without the plexi.

Can be used in:

- offices
- food chains
- pharmacies and medical centers
- open space offices
- at gas stations
- public space

The product does not guarantee full protection against virus

EDBAK is a leading European manufacturer of innovative LCD screens and projector mounting systems. For 25 years already, we have offered, among other things, professional mounts for flat screens and monitors, conference trolleys and stands, multi-monitor video walls, totems, kiosks, POS holders and tablet mounts, and many, many others. Our products all have the most important quality certificates, including those issued by TÜV, ISO, AVIXA. All of our products are designed and manufactured from the very beginning until completion in Poland.
